

Quince is looking for you

DevOps Engineer

Our company

Quince is a one-stop digital and retail activation agency.

Our passion is to build branded e-learning platforms with premium quality creative content with the use of gamification techniques to engage our clients' sales staff and help thousands of users worldwide to keep their knowledge up-to-date.

We also take care of branding, UX/UI design, AR, VR, VFX, interactive products and software development for major international brands from the Consumer Electronics, Healthcare and Telecom industries.

Quince is a unique, people-oriented company, which is reflected in loyal clients. Passion in your work, challenging yourself, taking responsibility, respect, having fun and exceeding expectations are core values.

Quince continuously invests in personal growth and in the latest technologies. More than 70 employees of various nationalities work at the headquarters in Amsterdam and in the Budapest office.

Job function

As a DevOps Engineer, you will work in the Budapest office, as part of a team, who creates world class digital and retail communication platforms, tools and innovative e-learning solutions.

In this role, you'll work collaboratively with the software development team to deploy and operate our cloud applications and services. Help automate and streamline our operations and processes. Build and maintain tools for deployment, monitoring and operations. And troubleshoot and resolve issues in our dev, test and production environments.

Things you should have

- 6+ years of proven work experience as a DevOps Engineer or similar role
- Strong background in Linux/Unix Administration
- Experience with infrastructure automation/configuration management
- Wide knowledge of scripting languages
- Working knowledge of IT security
- Experience automating CI/CD principles, architecture and operations
- Experience in Amazon Web Services
- Knowledge of containerization based solutions (Docker, LXD, Kubernetes)
- Knowledge of version control systems (GIT, Gitlab)
- Ability to work in Agile environment
- Good spoken and written English level
- Good team skills

Things, that make us happy

- Knowledge of development methodologies
- Developer experience
- Release management knowledge

Our offer

Quince has an open and stimulating company culture and barely knows hierarchy. You will be working in the nicest area of Budapest, in a convenient city center location with a magnificent view over the Danube and the Buda hills, in a cozy office with great people. Work-life balance is a core component of our culture and we offer a competitive salary package and benefits.

How to apply

Please send us your CV to info@quince.hu (with the 'DevOps Engineer' subject).
