Quince is looking for you

Developer Team Leader

Our company

Quince is a one-stop digital and retail activation agency. Our passion is to build branded e-learning platforms with premium quality creative content with the use of gamification techniques to engage our clients' sales staff and help thousands of users worldwide to keep their knowledge up-to-date.

We also take care of branding, UX/UI design, AR, VR, VFX, interactive products and software development for major international brands from the Consumer Electronics, Healthcare and Telecom industries.

Quince is a unique, people-oriented company, which is reflected in loyal clients. Passion in your work, challenging yourself, taking responsibility, respect, having fun and exceeding expectations are core values. Quince continuously invests in personal growth and in the latest technologies. More than 70 employees of various nationalities work at the headquarters in Amsterdam and in the Budapest office.

Job function

As a Developer Team Leader, you will lead a team that creates world class digital and retail communication platforms, and innovative e-learning solutions. Your task to work on long-term projects: preparing the work pipelines, estimating the entity of the jobs, and planning the development which can be challenging but you know how to do it.

In Quince, we believe that leadership goes through engagement and innovation, and as a leader you are aware of the modern development frameworks, can lead innovation, and can groom your team members to face new challenges mentoring, coaching and sharing your knowledge.

Things you should have

- 5+ years of proven work experience in managing team of developers with different backgrounds through agile methodologies
- Strong fluency in Java web frameworks (Spring and Spring Boot)
- Knowledge of MySQL and NoSQL databases
- Mastering of clean code principles and modern workflows (CI/CD)
- Experience in DevOps processes and Cloud solutions (AWS and docker)
- Experience with version control systems (Git is our choice)
- A constructive, team oriented mindset
- Up-to-date, and maintained knowledge of tools and best-practices for creating a high performing web experience
- Practice in code review and testing, quality assurance for reusable code
- Good spoken and written English level

Things, that make us happy

- Good knowledge of modular architecture
- Experience with JavaScript and React
- Knowledge of designing RESTful services
- Experience with issue tracking systems
- Groovy and Grail frameworks experience
- Any Open Source contributions

Our offer

Quince has an open and stimulating company culture and barely knows hierarchy. You will be working in the nicest area of Budapest, in a convenient city center location with a magnificent view over the Danube and the Buda hills, in a cozy office with great people. Work-life balance is a core component of our culture and we offer a competitive salary package and benefits.

How to apply

Please send us your CV to **info@quince.hu** (with the 'Developer Team Leader' subject).
