Quince is looking for you
Front-End Developer

Our company

Quince is a one-stop digital and retail activation agency.

Our passion is to build branded e-learning platforms with premium quality creative content with the use of gamification techniques to engage our clients' sales staff and help thousands of users worldwide to keep their knowledge up-to-date.

We also take care of branding, UX/UI design, AR, VR, VFX, interactive products and software development for major international brands from the Consumer Electronics, Healthcare and Telecom industries.

Quince is a unique, people-oriented company, which is reflected in loyal clients. Passion in your work, challenging yourself, taking responsibility, respect, having fun and exceeding expectations are core values.

Quince continuously invests in personal growth and in the latest technologies. More than 70 employees of various nationalities work at the headquarters in Amsterdam and in the Budapest office.

Job function

As a Front-End Developer, you will work in the Budapest office, as part of a team, who creates world class digital and retail communication platforms, tools and innovative e-learning solutions.

Your work will involve close collaboration with the back-end and the design team.

Being part of the final stage of development, beyond realizing the functional and visual core of the page, your task is to assure that the final application delivers a great experience on all target devices.

Things you should have

- 2+ years of proven work experience as a Front-End Developer
- Advanced JavaScript skills
- Experience with React and its newest features
- Thorough knowledge of HTML5, CSS3 and CSS preprocessors
- Working knowledge of Design Patterns
- Experience with NPM and Git
- A personal habit of writing clean, well-documented and tested code
- Passion for great user experience, a keen eye for aesthetics and details
- Good spoken and written English level
- Good team skills

Things, that make us happy

- Experience with other languages (other than JavaScript)
- Worked with issue tracking systems before
- Experience with RESTful API
- Self-learning ability
- Proactiveness

Our offer

Quince has an open and stimulating company culture and barely knows hierarchy. You will be working in the nicest area of Budapest, in a convenient city center location with a magnificent view over the Danube and the Buda hills, in a cozy office with great people. Work-life balance is a core component of our culture and we offer a competitive salary package and benefits.

How to apply

Please send us your CV to **info@quince.hu** (with the 'Front-End Developer' subject).
