

Quince is looking for you:

Junior Front End Developer

Company

Quince is a one-stop digital and retail activation agency.

We take care of strategy, branding, print, interactive, production and software for major international brands from the Telecom, IT and Consumer Electronics industry.

Quince is a unique, people-oriented company, which is reflected in loyal clients and low staff turnover. Passion in your work, challenging yourself, taking responsibility, respect, having fun and exceeding expectations are core values.

Quince continuously invests in personal growth and in the latest technologies. More than 75 employees of various nationalities work at the headquarters in Amsterdam and the Budapest office.

Our platforms are used by leading telecom and consumer electronic brands from across the globe. These solutions use gamification techniques to engage our clients' sales staff and help thousands of users worldwide to keep their knowledge up-to-date.

For more information about us, please visit our website on www.quince.hu

Job function

As a Junior Front-end Developer, you will work in the Budapest office, as part of a team, who creates world class digital and retail communication platforms, tools and innovative e-learning solutions.

Your work will involve close collaboration with other front-end developers, the back-end team and designers.

Being part of the final stage of development, beyond realizing the functional and visual core of the page, your task is to assure that the final application delivers a great experience on all target devices.

Things you should have

- 0-1 years of experience as Front End Developer
- Knowledge of the principles of Front End code writing and maintenance
- Understanding of the basics of functional programming
- A personal habit of writing clean, well-documented and tested code
- HTML5 and CSS knowledge
- Basic knowledge in functional and object-oriented programming
- Willingness to learn, strong self-learning ability
- Basics of GIT
- Desire to work on large, long-term projects
- Passion for great user experiences
- A keen eye for aesthetics and details
- Good knowledge of English

Things, that make us very happy (aka the plus)

- Experience with Java based web applications
- Experience with RESTful API
- If you ever used React, Angular or jQuery UI
- Experience with issue tracking systems
- Experience with modern JS stack
- Experience with a CSS preprocessor (SASS, LESS)
- Responsive design
- Unit testing
- Any Open Source contributions

Offer

Quince has an open and stimulating company culture and barely knows hierarchy. You will be working in the nicest area of Budapest, in a convenient city center location with a magnificent view over the Danube and the Buda hills, in a cozy office with great people.

How to apply

Please send us your CV via email to info@quince.hu (the subject of the email should be Junior Front-end Developer).
