

Quince is looking for you

Junior Back-End Developer

Our company

Quince is a one-stop digital and retail activation agency.

Our passion is to build branded e-learning platforms with premium quality creative content with the use of gamification techniques to engage our clients' sales staff and help thousands of users worldwide to keep their knowledge up-to-date.

We also take care of branding, UX/UI design, AR, VR, VFX, interactive products and software development for major international brands from the Consumer Electronics, Healthcare and Telecom industries.

Quince is a unique, people-oriented company, which is reflected in loyal clients. Passion in your work, challenging yourself, taking responsibility, respect, having fun and exceeding expectations are core values.

Quince continuously invests in personal growth and in the latest technologies. More than 70 employees of various nationalities work at the headquarters in Amsterdam and in the Budapest office.

For more information about us, please visit our website on www.quince.hu.

Job function

As a Junior Back-End Developer, you will work in the Budapest office, as part of a team, who creates world class digital and retail communication platforms, tools and innovative e-learning solutions.

Your work will involve close collaboration with the front-end and the design team.

Being part of the final stage of development, beyond realizing the functional and visual core of the page, your task is to assure that the final application delivers a great experience on all target devices.

Things you should have

- 6 to 12 months of experience as a Back-End Developer
- Knowledge of the principles of Back End code writing and maintenance
- Understanding of the basics of functional programming
- A personal habit of writing clean, well-documented and tested code
- Knowledge of Java 8, Spring and SpringBoot
- Basic knowledge in functional and object-oriented programming
- Willingness to learn, strong self-learning ability
- Basics of GIT
- Desire to work on large, long-term projects
- Passion for great user experiences
- A keen eye for aesthetics and details
- Good spoken and written English level

Things, that make us happy

- Experience with Java based web applications
- Experience with issue tracking systems
- Experience with modern JS stack
- Experience with JavaScript
- Any Open Source contributions

Our offer

Quince has an open and stimulating company culture and barely knows hierarchy. You will be working in the nicest area of Budapest, in a convenient city center location with a magnificent view over the Danube and the Buda hills, in a cozy office with great people. Work-life balance is a core component of our culture and we offer a competitive salary package and benefits.

How to apply

Please send us your CV to info@quince.hu (with the 'Junior Back-End Developer' subject).
